

Lesson 5

Essential Questions

1. What is the design process?
2. How do we use the design process?
3. How do we **debug**?

Featured Projects

1. savagewyatt - week 4 assessment
2. sillyartist - week 4 assessment

Agenda

1. Hook: Feature Project
2. Introduction to New Material: Debug and Remix
3. Activity 1: Cards
4. Activity 2: Share Projects
5. Activity 3: Innovations
6. Assessment: Work Product

Programming Design Process

1. Selected an idea we want to create.
2. Write code to make the idea come to life.
3. Press “play” and see what happens.
 - If it works, you’re done!
 - If not go to step 4
4. Ask ourselves what went wrong?
5. Based on answer
 - a) Check all the details in the code
 - b) Add all missing directions
 - c) Ask for help
6. Repeat steps 2-5 until the program works
7. Celebrate
